Elder O. P. Badger has returned from his Western tour.
Mrs. Harvey Allison is suffering from an attack of flux.

The city schools will open the first Monday in September.
J. W. Cole has the finest house in town, but it is on paper yet.

Rev. T. S. Webb, of Danville, preached at Roberts Chapel Sunday.
The loose logs about town are a nuisance, and the hog pens are worse.

G. W. Streepy, the jeweler, has gone to Gosport, and opened a shop.
Call at this office and get a premium list for the Putnam County Fair.

Not much sickness in this vicinity. What there is, is mostly of a bilious character.
J. T. Rogers contemplates removing to Bloomington, his old home, in a few weeks.

One week last month the Pump Factory in this city shipped over a thousand pumps west.
The tower of the new church at Fincastle didn't give satisfaction, and is being built over again.

Rev. J. W. Webb preached at Manhattan Sunday night. The house was not large enough to hold the audience.
The new Methodist Episcopal church at Cleveland is to be dedicated Sunday, the 13th, Rev. Mr. Bowman officiating.

A well is being dug at the First Ward school house. The well on the Public Square is not opened so much as it was.
Daniel S. Morrison, Clerk of the Circuit Court of LaSalle County, Kansas, is spending a few weeks with his friends here.

Garrett Conover is the oldest Mason in the city. He took the first degree fifty-five years ago at Gettysburg, Pennsylvania.
Willie Crow, a son of Joe Crow, was thrown from a young horse Saturday afternoon, and three bones of his right hand broken.

A large party from Terre Haute will visit the GreenCastle Springs this afternoon. A dance is on the programme for the evening.
F. M. Davis, a former student of Asbury University, is now a wanderer on the other side of the globe. When last heard from he was at Tangier, Morocco.

Stevenson & Son have opened a branch of their hardware establishment at Ladoga. The senior partner, assisted by J. L. Williams, will have charge of it for the present.
Rev. T. D. Welker, of the Ellettsville circuit, is visiting his friends in this county, and called on one day last week, apparently in the enjoyment of the best of health.

Dr. A. C. Stevenson has returned from Kentucky. He reports the wheat and fruit crops poor, but corn is splendid. Oats were good, and the pastures are in fine condition.
Peters' Musical Monthly for August contains—"I don't tell you," the comic song sung at Brown's Hall by J. L. Williams, the Peak Family & others. J. L. Peters, 500 Broadway, New York.

The female brigade will proceed to the springs this afternoon on horseback, dressed in uniform. No males will be allowed to accompany them, much to the discomfiture of certain parties we know.
Solon Turman and Dr. Priest are bathing both sides in the water of the GreenCastle springs. They hope it equal to Mother Winslow's soothing syrup. Hope it will wash the Democracy out of them.

John White was stricken with paralysis Sunday afternoon, in the throat and right side of the face. He had been suffering with fever for two weeks previous. Tuesday evening he was much better.
Last Sunday Miss Kate Morrison was presented with a silver casket, laden with choice fruits and flowers, by the Simpson Chapel Sunday School, to show their appreciation of her services in the choir, as organist. Miss Langdon made the presentation speech.

The Terre Hauteans having discovered how vain are all their hopes from their numerous artesian wells, are now seeking the water of life at the GreenCastle Springs. The brain of the Mail reporter is already water-logged. He has it bad.
William H. Rogers, a former citizen of this place, was seriously stricken at Ladoga Sunday evening. We haven't learned the weight of the projectile, but it is said to be in a good state of preservation. It is thought William will soon be able for his rations as usual.

During the past month the sexton of Forest Hill Cemetery has graveled over 1600 feet of walk. A well has been sunk in the valley beyond the Nelson monument. Some benches have been placed in the grounds for the accommodation of visitors, and more will soon be added.
The Triennial Convocation of the Grand Commandery Knight Templars of the United States meets at Baltimore, September 20th, 21st and 22nd. Quite a number of Sir Knights from our city expect to attend, among whom are Sir E. T. Keightley, Sir G. W. Whitworth, Sir Louis Weik and Sir J. M. Hays.

Improvements of Central and North GreenCastle.

The improvements in this city during the past year have been considerable, and are generally of the most substantial character. A few days ago we made a tour of J. D. Hutchings through the central and north parts, and propose to mention some of the work, deferring any notice of South GreenCastle until another occasion.

The first thing was the new building of Asbury University, on which about \$12,000 were expended last year. The first story is now being put on, and will cost about the same amount. The changes on the building formerly used as the Second Presbyterian church, in order to adapt it to the uses of the Asbury Female College, cost \$1,000. Five hundred more were expended on the same property. The residences that have been built, and their estimated cost, are as follows: W. H. Thornburgh, frame, \$2,500; Ed. Allen, frame, \$1,000; John Irwin, do., \$1,500; H. C. Darnall, Jr., do., \$4,000; Dr. Ellis, brick, \$5,000; C. Allison, do., \$3,000; James Matthes, frame, \$1,000; John Allen, do., \$3,000; J. A. Curtis, do., \$3,000; Hiram Marshall, do., \$3,000; Robert Knick, brick, \$1,000; Dr. Knight, frame, unfinished, \$3,000; David Stanley, do., \$3,000; G. W. Whitworth, do., \$2,500; four small frames on North Indiana street, \$3,000; three frames on Dugby Street, \$4,000; Joe Klinebush, brick, \$2,500; T. C. Grooms, frame, \$2,500; John Weidell, do., \$1,000. Peck's stables on Jackson street cost about \$1,000; the National Bank building \$27,000; Lyon & Weik's new four-story stone front, \$5,000; and the First Ward school building, \$29,000. At the North Depot, and in that vicinity the change has been very great, and buildings have been erected to the value of at least \$20,000. Besides the new houses erected, much has been done in the way of improving the city. The following is the list we gathered of those who have made such improvements: Dr. Pritchlynn, \$400; T. O. Allen, stable, \$400; J. G. Tennant, \$1,200; John Allen, \$500; Geo. B. Smith, \$1,000; Catholic Church, \$4,000; Henry Melzer, \$700; Henry Lane, do., \$800; Jacob Bicknell, \$500; Mrs. Hoyt, \$500; Louis Weik, \$100; H. Hawkins, \$400; Fred Weik, \$500; the Dugby property \$400; A. B. Brattin, \$800; W. W. Brown, building, \$1,000; Gasper Benick, \$700; J. H. Fleming, \$1,000; Levi Cobb, \$300; add Dugby, \$300; E. T. Keightley's building, \$1,000; J. S. Jennings, \$400; S. Claypool, \$400; Central House, \$1,000; Jacob Bicknell, shop, \$500; Willis Neff, \$500; Ed. Hannaman, \$200; W. H. Coates, \$200; J. D. Hutchings, \$800; T. G. Housh, \$400; D. Langdon, \$1,000, and Dan Mahoney, \$400. Doubtless this statement is very imperfect, and if any names have been omitted, we would like to have them, with the facts. Every person who has made any kind of an improvement, during the past year, is requested to send a report of the same to this office. We hope to visit South GreenCastle next week.

Croquet Notes.
An exchange says that croquet for its own sake, like dancing for its own sake, is absurd, but as a means of amusement, and as a means of getting pretty girls and attentive cavaliers, and what could be more delightful? Some of our citizens, however, seem to find it very attractive without the pretty girls, a fact not at all creditable to their want of refinement and good taste.
Many croquet fields have been fitted up in this city in an elegant manner. Among them we may mention those of T. C. Hammond, Prof. Tingley, Prof. Ridpath, C. W. Talbot, D. L. Southern, Dr. Bowman, J. Birch, J. W. Cole and Levi Cobb. In addition to these we might name others who also have fields, on which the game is played almost daily. They are—A. Birch, Dr. Locke, A. J. Hall, John Irwin, B. F. Hays, J. H. Cookerly, Thomas Robinson, Maj. Puet, A. N. Clark, John Housh, C. J. Kimble, Dr. L. Southern, Dr. Hutchings, M. A. Moore, Louis Weik, G. W. Whitworth, A. B. Brattin, John B. Hammett, H. Hawkins, John Burley, John Burk, Samuel Catherineau, J. T. Christy, J. F. Darnall and T. W. Williamson. There are probably many others whose names we have failed to get.

Dr. Pritchlynn finds an ordinary yard too cramped for his operations, and resorts to the College Campus, where, for a few kindred sports, he may be found on pleasant afternoons playing a "scientific" game. Persons desiring to study the genuine, unadorned game will find this a good place to do so. Time from 2 to 6 o'clock.
The following are said to be champion players: Dr. Pritchlynn, Johnny Pritchlynn, James Jarnall, Clay Darnall, D. L. Southern and his two sons, Harry Mathias, J. D. Hutchings, T. G. Bowman, Prof. Ridpath, Prof. Locke, Dr. Bowman, Prof. Tingley, Horace Tingley, Dan Brannan, Willie Cole, and all the ladies. Frank Darnall plays well, but he usually gets a bad case of the "itch" in the game that he fails to get out as soon as the others do. It is also difficult for him to find enough ground to play on. The campus would do very well, but the college building often gets in his way. Dr. Locke has appeared so skilful that he can rarely find an opponent who can stand up to the field with him. There seems to be a general desire to engage his services as umpire. C. J. Kimble is said to make a good shot, and when he has grown the older in the game, will be one of our best players.

Croquet is an innocent, healthful recreation, and we are delighted to see it so popular with our citizens.
We publish to-day an interesting article from Mr. Pleasant Iowa, Journal, giving a short sketch of the career of the four Cole Brothers, the eldest of whom, J. W., is a citizen of this place. In speaking of the employees of the firm, it is proper to mention that Charles, second of the four Cole brothers, who has discharged his duties with such faithfulness and ability for several years that recently he has been selected as general agent for the whole department, and now gives a part of his time to that branch of the business. The gentleman who has charge of the out stations, have held those positions for several years, and this fact speaks highly for their fidelity and capacity.

The business of the firm has increased with each succeeding year, and during the present year a much larger number of pumps are being sold than ever before. It affords us pleasure to witness their prosperity.

REAL ESTATE TRANSFERS.—Harvey Denny to A. J. Rockwell, half lot 20 and all of 23 Eastern GreenCastle, \$500; Dugby Rogers to P. F. & A. E. Johnson, lot 20 of Eastern GreenCastle, \$1,000; M. B. Scott to John A. Rockwell, 30 acres in Jefferson Tp., \$1,100; H. M. Rockwell to A. J. Rockwell, 57 1/2 acres in Cloverdale Tp., \$1,000; Samuel S. Adair to Geo. A. Biddle, lots 7 and 10 and east half of 8 and 9 in Section 26, Township 20 N., Range 10 E., \$1,000; M. B. Scott to John A. Rockwell, 120 acres in Washington Tp., \$1,800; Martha Jones to Lucinda McCormack, part of lot 78 Eastern Ed. GreenCastle, \$1,000; James H. Larkin to John Vermillion, 80 acres in Jefferson Tp., \$1,000; Woodson Babin to W. F. & W. T. Babin, 40 acres in Franklin Tp., \$1,000.

A good story is told of Cohn, the clothier. It seems that, in addition to clothing, he sometimes sells boots and shoes. One day he was fitting a customer with a pair of boots, and the customer, who was a stranger, said to him, "Will you warrant them?" "First rate," was the answer, "I will warrant them." "Will you warrant them?" "Yes, I'll warrant every thread to be all wool," was the still more emphatic answer.
Cohn's is the place for all-wool boots.

The Sunday school picnic at Bainbridge next Saturday promises to be an occasion of considerable interest. The different schools will meet at the Christian church in that town at 9 o'clock, A. M., where the procession will be formed, and march, at 10 o'clock, to D. T. Thornton's beautiful grove, a short distance southwest, where the picnic will be held. Some means will be provided for carrying baskets to the grounds. A splendid spring will supply abundance of water. Nothing will be left to the guests who attend except to enjoy themselves as they ought.

Dr. Freeman informs us that the recent rain had a wonderful effect on Gap Bonick's garden. When Mr. Bonick went out to inspect his beans the following morning, he found that the corn, with which they had been planted, had grown so fast during the night that it had pulled them up by the roots, leaving them suspended high and dry in the air. Freeman expects us to believe this, and we do.

Columbus Sellers, a member of the Atlantic Base Ball Club, met with an accident while playing last night with the GreenCastle Club at Bainbridge. The ball struck his thumb on the end, breaking it at the first joint, and driving the bone out through the flesh. The Club mourns his temporary loss, as he is a good player. Base ball is a glorious game for breaking bones.

BUSINESS NOTICES.

NOTES.—Notes will be issued for any length of time in this Department, and will be charged at the rate of one cent for the first section, and five cents a line for each additional section. Send words making a line.

ORDERS FOR GROCERIES AND PROVISIONS will be promptly filled when given to the boy who drives our delivery Wagon.
LYON & WEIK.
31w2

THERE will be a grand Sabbath School Picnic held at Brick Chapel, August 12th, 1871. Rev. Clark Skinner and Elder O. P. Badger will deliver addresses. Other speakers are invited. Bark, of GreenCastle, will be on the ground with plenty of refreshments; no other hucksters allowed. Come one, come all, with baskets well filled.
31w2

TEACHERS' INSTITUTE.
The next annual meeting of the Putnam County Teachers' Institute will commence Monday morning, Aug. 21st, and continue five days. The yearly gatherings of the teachers and those preparing to teach are very beneficial to the profession. The examiner desires to make this one of the most profitable of any yet held in the county, and cordially invites every teacher to be in attendance. One hour of each day will be devoted to the examination of applicants for license to teach.
W. B. SMITH,
County Examiner.

Shameful, if True.
A few days since, a train on the Indianapolis & St. Louis railroad ran over and killed a poor laboring man named Murdock near the town of Carlen, in Clay county. The unfortunate man was a resident of this city, and now comes one of his friends and neighbors and complains to us that the railroad managers charged the indignant family of the deceased the sum of \$125.00 for bringing his mangled remains to his home in this city. It has long been a maxim that "corporations have no souls," and we suppose this incident is only another evidence of the utter heartlessness of such combinations. In this connection it may be well enough to state that the dead man was so poor that his friends had to pay all the funeral expenses, and also raise a fund for the temporary care of his wife and little children.—*Journal.*
We learned the above in an indirect way at the time we heard of the accident, but hesitated to make the same public, without a full knowledge of the case. If true, a word of explanation is due from the officers of the road, and if otherwise, a prompt denial should be made.—*T. H. Express.*

Apprehension of Cholera.
A London special says there is a growing uneasiness in the public mind over the fact that the cholera has raged for two years in Russia as a terrible scourge. It has not yet found its way to this country, but watch has been instituted to prevent its progress. Apprehension exists. It has not advanced upon Germany in the usual way it has heretofore. It may not come by way of the sea, and the government has prescribed a regulation to be enforced upon all ships from Baltic ports. There have been recently some cases at Hull, which is on the route of emigrants from North Germany to America.

Later dispatches say but one case has yet been reported in England at Hull. Sanitary authorities lower taken such steps as they can to prevent the disease. Cholera has appeared in South France. Measures have been adopted to prevent the spread of the disease.

The sub-knifex committee has returned to Washington. Its investigations discovered a most horrible state of affairs in South Carolina, and it reached the conclusion that the democrats were, in proportion to their numbers, the most corrupt set of scoundrels in all the republics in all the corruptions connected with the legislature. Most of the irregularities complained of were perpetrated by a ring in the legislature made up of obnoxious persons, known as the forty thieves. They had not yet found their way to this country, but prevent the passage of any bills having money in them, unless they received their tolls. This set were responsible for most of the corruption.

Something very much like a know-nothing movement has begun at Baltimore. An American union association has been formed in the New York Tribune is being stimulated motion. The president of the association, at one of the early meetings, claimed that the organization would soon extend over the country. The American, the republican organ of Baltimore, while conceding that Protestants are a good lot, is not much inclined to be a good lot, and states themselves, and deprecates the "departure" as impolitic.

The reduction in the public debt during the month of July was \$5,701,976, making a further decrease in the annual interest charge of nearly half a million dollars. The total debt is now \$1,811,000,000. The treasury holds over eighty-three millions in specie, of which about seventeen millions is representative of certificates outstanding, leaving sixty-six millions owned by the government, and only about six millions more of the interest falling due before November.

The Indianapolis "Journal" offers a reward of any speech made by Mr. Hendricks during the rebellion, in which he took decided ground in favor of the suppression of the rebellion by force of arms. The "Journal" would be quite safe in offering a much larger reward for evidence showing that Hendricks ever "took decided grounds" on any question. That isn't Thomas's way.—*T. H. Express.*

General G. T. Boyle died suddenly, of apoplexy, at his residence in Louisville, Friday afternoon, at 3 o'clock. He had been complaining of cramp in the leg since the night before. He was a Brigadier General in the Federal army during the war, and at one time Military Governor of Kentucky. His father was Judge John Boyle, former Chief Justice of Kentucky.

Captain David H. Todd, formerly of Lexington, Kentucky and brother of Mrs. Lincoln, died at Huntsville, Alabama, on Sunday night of consumption.

The French government has a nice job on its hands in the trial of the arrested Communists, who number thirty-two thousand. The work is of such magnitude that numerous additional judges have been created.

A school teacher named Jacob Gott was killed Monday afternoon by a gravel train on the Bloomington Railroad. Six others were badly hurt.

Bishop Simpson, of the Methodist Church, is at the Clifton Springs Water Cure in very feeble health. He seldom leaves his room, and can scarcely speak above a whisper.

Owing to the lateness of the season the president, on the advice of General Sherman, has postponed his trip to the Pacific coast till next spring.

A steamer from New York to San Domingo sailing on Saturday, took \$150,000 to Baez as a second payment on the Samana lease. A lot of arms were also taken.

The Four Brothers.

Track, Energy, Perseverance and Honesty.

From the Mt. Pleasant (Iowa) Journal.
The fact that Mount Pleasant is considered the handsomest and most desirable city to live in, within the bounds of the glorious and patriotic state of Iowa, is so well known and universally acknowledged that it is unnecessary for us to assert it here.

With a population of five thousand, located in one of the oldest and most thickly settled counties in the State—the acknowledged center of education, being the seat of the Iowa Wesleyan University, the nearest college of Iowa, the Mt. Pleasant Female Seminary, Howe's High School for teachers, and the best graded Public Schools—with the best society, such as would naturally gather into a city with these churches and schools—a city surrounded by an agricultural country not excelled anywhere—all these go to make Mt. Pleasant the place of all others for persons seeking a home in the West where society is settled, and yet move ahead at first pace characteristic of western cities. While we can boast all this we are ready in need of the one other thing to make us what we would wish to be—manufacturing establishments. All it needs to build up and make business grow is luck, energy, perseverance and honesty. As evidence of this we have only to point to the firm of the four

COLE BROTHERS.
We know we have frequently made mention of this firm in our columns, but they are a "band of brothers" that we like to talk about, and then it is no small matter to write that the firm doing the largest Lightning Rod and Pump business in the United States, are Mt. Pleasant men, with their firm headquarters in our city. To show something of the results to be obtained by driving men, we propose to notice briefly the growth of this firm from its organization down to the present time.

Nineteen years ago last Spring in the town of Mount Pleasant, Iowa, J. W. & R. S. Cole commenced business as Lightning Rod dealers, with a fifty dollar stock to commence on, and during the first year run one team. The second year they added another team, and from thence forward their business rapidly increased until 1857, when they were employing twenty-five men. That was a year, however, fatal to many business men throughout the country, and these gentlemen, meeting with many severe losses, were compelled to reduce their business on the following year.

In the Spring of 1859 the firm was changed to Cole, Troop & Co., by the admission of J. A. Troop and A. Brockway as partners. This partnership lasted until the Spring of 1865, when Mr. Troop withdrew, and Mr. John J. Cole was admitted, forming the present company, known as Cole Brothers. During this time the business of the firm had greatly increased, and they commenced the manufacture of Lightning Rods themselves, instead of depending upon Eastern manufacturers, as has previously been the practice. With these advantages, their business rapidly increased, until they have grown into the largest establishment of the kind in the United States, employing at the present time about 175 men, and keep from 75 to 80 teams traveling constantly through Iowa, Illinois, Nebraska, Kansas, Missouri, Indiana and Kentucky.

THE ST. LOUIS HOUSE.
Is managed and controlled by Mr. John J. Cole, a gentleman of great practical experience in this branch of business, and whose energy and knowledge of the branch of manufacture, has done much to build up the business of the firm, and bring the Franklin Lightning Rod and pump perfection as possible. Last year they erected, at 723 South Seventh street, a large and commodious two-story brick building, to be used as a finishing shop and shipping office.

THE GREENCASTLE HOUSE.
Is under the management of J. W. Cole and A. Brockway, who look after the manufacturing of the Pumps. They are first-class men, and under their able management the trade of the firm in Indiana and adjoining States is constantly increasing.

THE HEADQUARTERS.
Of this extensive firm are located in our own beautiful city at No. 23 North Jefferson street. Both Cole and W. R. Cole are residents of Mt. Pleasant and here is where most of the business of the firm is transacted. It is not necessary for us to write complimentary words of either of these men, who are so well and favorably known to our people. Our citizens all feel a just pride in the firm of Cole Brothers. Notwithstanding the various changes that have taken place in our country, financially and otherwise, since this firm commenced business, we find them jogging along at a lively rate, and, to all appearances, sailing on a smooth sea, with sails unfurled and shifted to suit every breeze, thus, by their skillful management, turning even the adverse winds to their advantage. Their business is no longer confined to the State of Iowa. We are glad to learn that they share largely in the trade of Illinois, Indiana, Kansas, Missouri, Nebraska, Kansas, Nebraska, Kansas and Texas. We suppose one of the secrets of the great success of this firm can be attributed to their aptness in selecting the "right man in the right place." The correctness of this statement will be readily admitted by all who are acquainted with their book keepers, clerks, &c. If we were not fearful of shocking the modesty of D. Riser, Jr., and Wm. McCoy, we would like to mention their names in this connection. We deem any comment on the ability of these men out of place, when they are known to be so successful in their business. Cole Bros. are surely lucky in having their services. When we learn that this company has constantly in their employ from 100 to 175 men, most of whom hold responsible positions, and, with one or two exceptions in all their business life, they have proven to be upright and honest men, making correct returns of all their business transactions, it gives us a little more faith in fallen human nature. The manufacturing shops of the company are located at St. Louis and GreenCastle. In order to keep pace with the increasing demand their facilities for manufacturing have been increased until they are now prepared to turn out 150,000 feet of the best quality of Lightning Rod, and 1500 Pumps per month. This must require an immense expenditure of money and labor in getting up such a vast amount of stock. Our regret is that we have not railroad facilities to induce such companies to do their manufacturing here, but this want will be supplied with the completion of the north and south road, thus placing our town on a fair footing with other manufacturing towns.

OUT STATIONS.
Of this company are under the able management of the following named men:
M. Fagan, Pana, Illinois.
D. S. Johnson, Kansas City, Mo.
Capt. F. M. Coy, St. Louis, Mo.
H. B. & W. W. Asher, Lawrence, Kan.
J. T. Hart, Cornell, Lawrence, Iowa.
D. Jennings, Osceola, Mo.
J. N. & J. Swan, Albia, Ia.
T. Courter, Chautauk, Ia.
M. Adams, Cedar Rapids, Ia.
A. J. Nichols, Booneboro, Ia.
F. S. Ramsey, Ft. Dodge, Ia.
J. W. Hutton, Atlantic, Ia.

The success that has crowned the efforts of their agents show them to be men of large business experience well fitted for their station.

It is announced that all Americans visiting Europe must have passports, especially naturalized citizens, as they can not procure them of their foreign agents without showing their proper papers.

ECKSTEIN, HILLS & CO.,
ESTABLISHED 1837.

"PHENIX BRAND"
PURE WHITE LEAD.
FIRST PREMIUM.
LARGE SILVER MEDAL.

Awarded by the Industrial Exposition for superiority over all other White Lead exhibited. WE OFFER THE ABOVE BRAND OF WHITE LEAD TO THE PUBLIC with the POSITIVE ASSURANCE that it is perfectly PURE, and will give **ONE OUNCE OF GOLD** For every ounce of ADULTERATION that it may be found to contain.

ECKSTEIN, HILLS & CO., Cincinnati.
NOTE.—Consumers will consult their INTEREST by bearing in mind that a large proportion of the article sold as PURE WHITE LEAD, is adulterated to the extent of from 50 to 90 per cent, and much of it does not contain a particle of Lead.

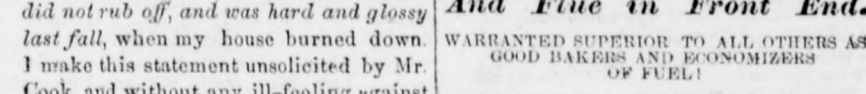

For Sale at ALLEN'S DRUG STORE.

HOUSE BUILDERS, LOOK TO YOUR INTEREST.
READ THE FOLLOWING:
June 26, 1871.

I, Aaron C. Beale, four years ago, bought the Phoenix White Lead and boiled oil for my house, and I do hereby testify that the above paint did not wear at all, but did within one year rub off. The Lead did not appear to have any more, nor any lasting qualities whatever. I make this statement without prejudice or bias against any person whatever.

I am acquainted with and fully corroborate the above statement in every particular, knowing the facts in the case to be just as stated, and would say in addition, that I, the same year Mr. Beale bought his paint, bought of Mr. Conrad Cook sufficient Pure White Lead and raned oil, to paint my house, and I now testify that my paint stood the weather here, did not rub off, and was hard and glossy last fall, when my house burned down. I make this statement unsolicited by Mr. Cook, and without any ill-feeling against any person whatever.
June 26, 1871. BASIL PECK, 27H

See one. Take one. Try one. Buy one. Every Machine is Warranted.

Comparative Merits of Reapers.
The Bucyrus Reaper and Mower is a two-wheeled machine, like the Buckeye, with two additional improvements over the Buckeye, viz.: Its driving wheels are four inches higher, enabling it to cut higher; its cutting knife is four inches longer in diameter, giving a third more power over the knife; its pitman has an adjustable joint which accommodates the knife to any position the reaper or mowing bar may take in passing over uneven ground, preventing any jerking of the pitman or strain on the shaft where the pitman joins to the knife; it has also an adjustable chain, which can be shortened without cutting the links, as in other machines. The Champion is a good machine, but the Bucyrus is the best of all, because of its additional improvements. If you don't believe these statements, call and see for yourselves. J. D. Stevenson & Son will take the greatest pleasure in showing the advantages. They will try it in the field against all others.

THE CHAMPION HOGS!
I propose to show the best hogs exhibited at the approaching Putnam County Fair. Hog raisers everywhere will please take notice. If you wish to dispute my claim, bring your swine to the Fair. The best will win.
July 18, 1871. 29m1 NAT. HAMMOND.

Farm for Sale.
A farm of 40 acres, situated about one mile from the Public Square in GreenCastle, will be for sale for only three months from date, for \$1,000. It has one comfortable dwelling, one cistern and two springs, and no orchard. Inquire at the BANNER office for further particulars.
July 15th, 1871. 29m3

Notice to Teachers.
The School Examiner will meet applicants for license to teach on the first Monday of each month. Examinations will be held in the office of Eckstein & Hills, East Side Public Square. W. B. SMITH, Examiner, GreenCastle, July 10, 1871.

B. F. BARWICK
WILL OPEN A
GROCERY STORE
This week on the NORTH SIDE OF THE SQUARE, where he invites all his friends and old customers for **BARGAINS.**
He will keep constantly on hand

GREENCASTLE BANNER.

Diverging Paths.
Elizabeth Stuart Phelps is out in the Independent with a large article showing exactly why women do not keep up with men in the matter of mental development. She says:

"Boys and girls begin by being astonishedly alike. Up to a certain point they go hand in hand. The first thing we know the road splits, and, before we can tell what has happened, or why, or how, he is tripping down his side of it, she hers, and off they go, 'waving their hands for a last farewell,' to that community of faculties, tastes and interests, that possible (sometimes practical) likeness of mental and moral culture which alone can constitute, in any sufficient sense of the word, equality between two people."

"Now and then a woman 'cuts across lots,' now and then a man goes honestly out to meet her; and occasionally, through thickets and over rocks, and across briars, the two clasp hands with an appreciation of mutual need, and a sense of one another which would have been unattainable had they gone on toiling roses and flying kites at each other across the growing distances of their several ways. But this is only that happy exception which proves the sad rule. Mature life, which develops the man, stunts the woman. He goes on, she stands still. Life unfolds, she droops. He puts himself at compound interest. She does well if she saves her principal intact. This is especially noticeable among what we call 'educated' men and women."

Influence of a Democratic Paper.
The Providence Press says: Brick Pomroy, who is making a western tour and writing the results to his paper, in his sixth letter describes a visit to the jail in Nevada, Storey county, Iowa. He found there a murderer under sentence of death, and a horse thief. They were the only prisoners. In conversation with them, the fact was disclosed that both were former subscribers to his La Crosse Democrat. Brick tries to paint a moral and adorn the tale, but he does not succeed. He endeavors to escape the logic of the subscription to his paper, by the fact that they had not been subscribers within two or three years, certainly not while in jail. Ah, Brick! that is too thin. They became prisoners by your, "red hot" Democratic literature, and though they had not been your readers for some little time, they had become thoroughly inoculated."

Another Swindle Upon the Farmer.
The latest scheme for swindling farmers is a wrought iron plow point, fitting into a hollow square, the economy of which is wonderful. Those who have been bitten find that wrought iron points cost more apiece than the entire share of cast iron. As these plow point swindlers are understood to be making a hurried sweep through the country, papers desirous of saving their patrons' pockets will direct attention to this swindling scheme. It cost the farmers of the west about two hundred thousand dollars last year.—N. A. Ledger.

The New Doleology.
We are privately advised that the meeting of the Democratic State Central Committee, and other magnates of the party, held at the hospitable mansion of Mr. Alford, Indianapolis, on Tuesday, was solemnly and appropriately closed by singing the new Democratic doleology, sonorously "lined off" by our Daniel:

"When you get a good thing done, save it, when you catch a black cat, skin him to the tail." —Terre Haute Express.

One of the greatest luxuries of the summer is its fruit. It is indeed, not only a luxury, but a provision of nature for the motion of health during the season when there is supposed to be the greatest liability to disease. If all the fruits are properly used in their season, they undoubtedly tend to promote a healthy condition of the system and ward off fevers and other forms of summer disease. But every thing depends upon its proper use. It should be perfectly ripe and perfectly fresh, or at least perfectly sound. It should not have any taint of decay.

An owner of a large private stable in New York who had a valuable trotter affected by the new horse disease, but fortunately cured him, he was advised by a friend to wash his horses with carbolic disinfecting soap, and cleanse his stables with the carbolic disinfecting powder. He did so, and has not had the least symptom of the disease since. The Adams Express and the Merchants' Union Express use it in their stables every day, and their horses are sound and well.

Here is an instance of rapid promotion: Laurence Minor, a colored porter of the steamer Gen. Lytle, of the Louisville and Cincinnati mail line, has been appointed a professor in Alcorn University, Mississippi, an institution established for the education of the colored race.

The country doesn't respond worth a cent to the Democratic State Central Committee's nomination of Hendricks. But it is, perhaps, proper enough that such a toast to the "departed" should be drunk in silence.

It has been decided by medical authorities that if a man has a good appetite, sleeps well, and feels better in spirits after his meals, he should let his health alone, whether he is as big as a hoghead or thin and dry as a fence rail."

The Mayville Republican has been publishing regularly the number of murders committed within the State of Kentucky since the 1st day of January last. In the last issue the list had aggregated the appalling number of one hundred and six.

A short time ago the Indianapolis Sentinel came out in an article against the State Reform School. If the Bright editor had been under the supervision of these gentlemen for a short time, he would have learned how to pocket loss of the State's money.

Charles Lever, the eminent Irish novelist received the degree of L. D. D. from Trinity College, Dublin, at the summer commencement. Forty years before he had conferred on him the degree of Bachelor of Medicine.

The horsehoofers' Protective Union of Chicago have refused to allow members to work in shops where machine-made horse shoes are used, and there has been an extensive stoppage of work in consequence.

The fish commissioners of Connecticut have had six million young shad hatched by Seth Green, and turned them loose in the rivers of the State. In three years they will be ready to eat.

Alvin Adams, the founder of the express business in this country, who was a poor man 30 years ago, now resides at Watertown, Massachusetts, and is one of the wealthiest citizens in New England.

The London Times says that one manufacturing establishment of small arms in America has a larger production than those of all England combined.

Some one has pointed out that more men were killed in the battle of the Eighth Avenue, New York, on the 12th of July, than at the battles of Bunker Hill and Lexington.

Eight thousand dollars worth of window glass was destroyed at Chicago by a hail storm on Wednesday afternoon of last week.

The members of the Methodist congregation at Mishawaka intend building a \$20,000 church this season and have already raised \$12,000 toward it. Of this amount, George Milburn subscribed \$5,000.

A young man living in Crown Point is humbly personified. The other day he was indignantly refused; upon which he inquired very humbly, if she would permit him to sit on the fence and see her go by.

A sable son of Ham residing in Sullivan county has been endeavoring to obtain a license to marry a white girl, the daughter of one of the local leaders of the untried, but the stony-hearted Clerk refused to issue the desired document. The fair one now vows that she will take a place in the next Democratic procession and bear aloft a banner inscribed "A Nigger License or None."

A gentleman of wealth and benevolence has made Prof. B. C. Hobbs, of Bloomingdale, Parke county, his agent to educate one dozen young ladies at the State Normal School. They must be of good Physique, well acquainted with the ordinary English branches, of unexceptionable moral character, and unable to meet their expenses at the institution. They are desired to pay what they can on travel and board and he will pay the rest, or all if needful. He prefers young ladies of talents, and who are successful teachers.

Mads dogs at Indianapolis. One death from milk sickness has occurred at Anderson, and two other persons are down with the disease.

We learn that D. N. Barnett of Putnam county threshed 700 bushels of wheat from 30 acres.—Ladoga Herald.

C. W. Brown, the man who run the *Wabash Sentinel* in this town for a brief season, some years ago, and then "lit out" with Joe Wright's printing office, is now running a job office in Terre Haute.—Rockville Patriot.

With the exception of two or three performances, Sheldensburg's Circus was a humbug. Its employees are among the most impudent of their class, and a gang of pickpockets and thieves closely follow it up—if the members of the company are not, themselves, such.—Brazil Miner.

The Ohio & Mississippi Railroad Company, in narrowing the gauge of their road and stocking it with the necessary new equipment, made another "new departure." Their new engines, instead of being gay with polished brass and fancy painting, are of a uniform dead black. The saving in first cost and in time spent "rubbing up" will be very great, but the pride of the locomotive engineers in their engines will be gone. They will have no heart to even claim that they are "black, but comely."

The lease of 99 years of the Jeffersonville, Madison & Indianapolis Railroad through the Pennsylvania Central having fallen through, the officers and directors of the Jeffersonville Railroad have been negotiating for the sale of their road and stock in the Ohio river bridge. It is understood the arrangements are so far completed that the road will pass into the hands of the Pennsylvania Central corporation at an early day. It is understood that the Pennsylvania Central takes two million of stock in the Jeffersonville road. They also agree to take stock owned by the Jeffersonville road in the Ohio river bridge at par. This sale will give absolute control of the Jeffersonville, Madison & Indianapolis Railroad, and a controlling interest in the bridge, to the Pennsylvania Central.

SPRING TRADE OF 1871.

The Spring Trade

Being fairly opened, have once more the pleasure of informing my friends and patrons that I am

Again in the Field

With an unusually attractive stock of

Spring and Summer Goods,

—OF—

EVERY DESCRIPTION,

SELECTED

With Great Care,

—AND—

Purchased with Cash

At prices which will enable us to

Compete with any House

Which is unusually large and attractive. Our stock of

Ladies',

Gents' and Children's

Hosiery.

Which is unusually large and attractive. Our stock of

White Goods.

Is also very complete, with prices greatly reduced. We make a specialty of many kinds of

FANCY GOODS,

—SUCH AS—

Fans,

Laces,

Collars,

Aprons,

Corsets,

Parasols,

Sun-Umbrellas,

Handkerchiefs

And other articles of Ladies' wear. Our stock throughout is

UNSURPASSED

In style or quality, and will be sold as

Low as any House in the Trade.

100,000 lbs WOOL

Wanted in exchange for Goods, for which I will pay the highest market price.

GUS. H. WILLIAMSON.

WOOL WANTED

—FOR—
Cash or Goods.

The Greencastle Woolen Mills

Are fully up with the times, and now offer one of the largest stocks of

WOOLEN GOODS

Ever Offered in This Market.

We manufacture our goods out of pure Wool, and are thus enabled to insure a good quality and good colors.

Why not bring your Wool to Headquarters, where you know you would get the highest market price and HONEST WEIGHTS, and honest goods at the lowest price?

We have no AGENTS for buying Wool. We cannot do justice to ourselves nor to the farmer, in buying Wool through agents. You want a large stock of goods to select from, and this you can only find at the factory. And then, by bringing the Wool to us, you can make the commission that the merchant or agent gets.

All kinds of

CASSIMERES,

JEANS,

FLANNELS,

WATERPROOF CLOTH,

BLANKETS,

COVERLETS,

SNOW WHITE COUNTERPANES,

SKIRTS,

YARN IN THE BROACH AND ROLLS.

TO EXCHANGE FOR WOOL.

Custom Spinning and Roll Carding

Done at Customary Rates.

Wool may be shipped to us via railroad, at our expense. Put your name on the bundle, so that we may know to whom it belongs. We will receive it and store it away until we hear from you.

We thank our many customers, far and near, for their long and continued patronage. We hope to see you again soon. We refer those who have not been in the habit of using our goods to your neighbors who have.

Patronize your home factories. By doing this you will always get good prices for your wool, and honest goods. Let merchants who buy Eastern goods to trade you for your wool keep their goods, and be not cheated out of your wool by these men, as many have been.

BIRCH & BROTHER.

Money Cannot Buy It!

FOR

Sight is Priceless!

BUT THE DIAMOND SPECTACLES

WILL PRESERVE IT.

THE DIAMOND GLASSES.

MANUFACTURED BY

J. E. Spencer & Co., N. Y.

Which are now offered to the public, are pronounced by all the Opticians of the World to be the

Most Perfect

Natural Artificial help to the eye ever known. They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

The Scientific Principle

On which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest

Manner,

In frames of the best quality, of all materials used or that purpose.

Their Finish and Durability Cannot be Surpassed.

David M. Spurgin,

JEWELER and OPTICIAN,

IS SOLE AGENT FOR

Greencastle, Indiana,

from whom they can only be obtained. These goods are not supplied to Peddlers at any price.

These Remedies are for sale by Druggists, Storekeepers, and Medicine Dealers, everywhere throughout the United States, Canada, South America, and the West Indies.

301

HOOFLAND'S GERMAN MEDICINES

Hooiland's German Bitters,

Hooiland's German Tonic,

Hooiland's Podophyllin Pill,

Hooiland's Greek Oil.

Hooiland's German Bitters,

A Bitters without Alcohol or Spirit of any kind,

Is different from all others. It is composed of the pure juices of VITAL PRINCIPLE OF ROOTS, HERBS, and BARKS (or as medicinally termed, 'extracts'), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this Bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot, under any circumstances, have any but a beneficial effect.

Hooiland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is \$1.50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but it is not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the Greatest Known Remedies

For LIVER COMPLAINT, DYSPEPSIA, NERVOUS DEBILITY, JAUNDICE, DISEASE OF THE

KIDNEYS, Eruptions of the SKIN,

and all diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE

BLOOD.

Read the following symptoms:

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Digest for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Unsettling Sleep, Fluttering at the Heart, Choking or Suffocating sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency in Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits. All these indicate Disease of the Liver or Digestive Organs combined with impure blood.

The use of the Bitters or Tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hooiland's Greek Oil,

Lightning Cure for all kinds of Pains and Aches.

APPLIED EXTERNALLY.—It will cure all kinds of Pains and Aches, such as Rheumatism, Neuralgia, Toothache, Chilblains, Sprains, Bruises, Frost Bites, Headaches, Pains in the Back and Limbs, Pains in the Joints or Limbs, Stings of Insects, Ringworms, &c.

TAKEN INTERNALLY.—It will cure Kidney Complaints, Backaches, Sick Headache, Colic, Dysentery, Diarrhoea, Cholera Infantum, Cholera Morbus, Camps, and Pains in the Stomach, Fever and Ague, Coughs, Colds, Asthma, &c.

Dr. Hooiland's Podophyllin,

OR SUBSTITUTE FOR MERCURY PILL.

TWO PILLS A DOSE.

The most powerful, yet innocent, Vegetable Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principal ingredient is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more Powerful, Acting, and Searching, than the Mandrake itself. Its peculiar action is upon the Liver, cleansing it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases, in which the use of a cathartic is indicated, these Pills will give entire satisfaction in every case. They never fail.

In cases of Liver Complaint, Dyspepsia, and extreme Constiveness, Dr. Hooiland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the nerves, regulates the Liver, and gives strength, energy, and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain its hold, or ever assail you.

These Remedies are for sale by Druggists, Storekeepers, and Medicine Dealers, everywhere throughout the United States, Canada, South America, and the West Indies.
